We’ve taken classic elements and added a twist to each one. Simple, but sophisticated. Classic, but playful. You can make this Collection speak to so many styles. Go with rich sienna brown stains and create a Bistro feel. Evoke a Retro look by finishing the elements with high-contrast primary tones. Each of the three Scenes in this Collection is transitional, melding traditional and modern – leaving enough room for next year’s hottest trend.

COLOR AND LINES
Fashion Forward panel moulding elements on the ceiling create modern linear movements through this space, while white and gray colors work to create a simply sophisticated look. The bright accent of gold paint on the custom mirror frame and Ikons™ add a focal element to the room that is sure to capture attention.

A PERFECT FIT
Each moulding element within the Fashion Forward Collection has been meticulously designed, so that they meet with a precise and proportioned fit. The crown mouldings, baseboards, window casings and chair rails meet floor, ceiling and each other to professional designer standards.

WOOD AND STAIN
The Poplar grain and painted MDF elevate the classic yet playful shapes of Fashion Forward mouldings to create the traditional elegance of this room with a modern twist. Finishing the MDF pieces in a uniform tone, like the gray on gray seen here, evokes a traditional yet on-trend look.

For this room, designer Sophie Burke took the transitional style of Fashion Forward Scene II elements and added Scene III panel moulding (below the chair rail) for a decidedly Urban look.
Fashion Forward doors have been designed to coordinate with all three trim Scenes, and are available in both solid core and glass options. All of these door designs feature concave shapes that echo the subtle sophistication of the Collection.

**DOOR FEATURES:**
- A solid MDF core for a quality feel that resists warping and reduces sound transmission room to room
- Solid door is MDF router-carved, primed and ready for painting
- Glass doors are available in clear or textured, tempered glass ensuring user safety
- Ball bearing hinges for a smooth operation
- 4 hinge finishes available: Oil-rubbed Bronze, Polished Chrome, Antique Brass and Satin Nickel

Simple convex lines make the crown mouldings in Scene I much more subtle than the other two Scenes. They also incorporate details at the ends of the profiles to create that classic elegance while maintaining a modern twist.

Scene I

- **CLEAR GLASS DOOR**
- **SOLID DOOR**
- **NANO PATTERNED GLASS DOOR**

Scene II

These primed MDF mouldings showcase exaggerated convex lines to create a pronounced look and presence that gives more of a nod to its classical side. A dark tone of paint can give this Scene more of a Bistro feel.

Scene III

The solid engineered Poplar of these mouldings has beautiful, crisp grain lines that take rich tones of stains or paints to create a more modern look. The chic lines and concave cutouts of these elements blend the traditional and contemporary to create trend-setting accents.

Add a rich stain to these Poplar elements to create a traditional look.
FINISHING COLLECTION

Glamorous, decorative, fluid, ornate, elegant

The timeless, detailed look of this room was created by designer Andrew Pike with a mix of French Curves Scene I and Scene II architectural elements and stand-alone pieces.

SYMMETRY MEETS ELEGANCE
The French Curves Collection is based on designs from the Greeks and Romans. That influence is evident from the architectural symmetry seen in the sculptural curves and pronounced convex elements. Yet their symmetry doesn’t affect the elegance of these mouldings, which flow ornately across walls, and from the top to the bottom of a room.

THE CHOICE IS EASY
Deciding on mouldings and other finishing elements is easier with Metrie™ Then & Now Finishing Collections™. We enlisted the help of top interior designers to create coordinated foundational mouldings, trim and doors. Each of them is designed to work as a cohesive system and give you a base on which you can layer on a variety of decorative styles and trends.

WOOD AND STAIN
French Curves uses a mix of MDF and engineered Poplar to create voluptuous and graceful curves that emulate a European Style. Take the paint-grade MDF in a classic French Traditional direction with a white tone. Or accent the curves from Scene III with a rich stain for a more modern look.

The timeless, detailed look of this room was created by designer Andrew Pike with a mix of French Curves Scene I and Scene II architectural elements and stand-alone pieces.
The French Curves doors have been designed to coordinate with all three trim Scenes, and are available in both solid core and glass options. Their Poplar construction truly shines through a clear coat or stain, but also creates a glamorous look with a light tone of paint. The patterned glass door carries the elegance and classic style of the Collection with the Hourglass pattern.

**Scene I**
Embrace the symmetry and bulbous, stylized nature of the French Curves Scene I elements. Made of MDF, these elements have beauty that shines through a light color of paint.

**Scene II**
Add a touch of glamour with the pronounced convex designs of the Scene II elements and take their style in a classic yet modern direction with a rich stain.

**Scene III**
The engineered Poplar in these finishing elements elegantly curves and rolls with the influences of the Baroque and Empire periods. The added curves and high crown mouldings that run up the wall add an illusion of height to a room.
Are you attracted to symmetry, but not to pure Minimalism? Then you’ll want to explore this Collection, inspired by the charming aesthetic and decorative detail of the Colonial period. Examine both Scenes carefully. You can easily take this Collection down the road to Folk Art with rich historical milk paint colors or more Country with mid-tone brown stains. We give you great bones to work with – you flesh out the scene.

**INSPIRED DESIGN**
The Pretty Simple Collection is inspired by the charm and classical look of Colonial architecture. This interpretation was carefully designed to work with up-to-date design trends and styles.

**TRADITIONAL: REFRESHED**
Push the boundaries of traditional Colonial Style with a modern twist of simplicity. The Red Oak creates a comforting, charming aesthetic that blends American Colonial design with simplified European Style for a refreshed look.

**WOOD AND STAIN**
Red Oak becomes the star in Pretty Simple Scene II finishing elements. Its red undertones glow warmly through stains and clear coats. It can also lean more Folk or Country with different finishes.

The Pretty Simple Collection is inspired by the charm and classical look of Colonial architecture. This interpretation was carefully designed to work with up-to-date design trends and styles.

**Designer Sandra Steiner-Houck** selected Pretty Simple Scene I and Scene II elements to push the boundaries of traditional design concepts in this room.

The warmth and honesty of authentic, utilitarian design. There’s nothing quite like the aesthetic created by the Craftsman, Mission and Prairie Style movements. Simple, linear, direct. Use these elements as the setting to create a Southwest Style with sun-washed tones. Go Mountain Modern by dry brushing a cool gray stain. Create a mid-century Bungalow feel by letting the Fir grain show through a warm whitewashed paint. So many places to land when you start here.

**UNUSUAL COMBINATIONS**

True Craft Scene III finishing elements come together in interesting ways in this room. Fir chair rail was used to create a tall, 6-foot high wainscoting effect. Ikons™ adorn the corners of the barn-style sliding doors to add texture and detail. The fireplace is also embellished with two large casings combined to create a butterfly pattern.

**PROPOTION AND FIT**

This grand room is the perfect setting for the larger, substantial moulding style of the True Craft Collection. These larger elements are meticulously proportioned to create a Craftsman Style look, while giving this large space a more comfortable feel.

**WOOD AND STAIN**

These Scene III vertical grain Fir mouldings create a natural, rustic feel and the addition of a grey-tinted stain helps showcase the intricate grain of the Fir, while subduing its red undertones. This adds to the authentic, modern aesthetic of the room.
True Craft doors have been designed to coordinate with all three trim Scenes and are available in both solid core and glass options. The interior sticking of all three doors uses a chamfer design that echoes the warm, authentic craftsmanship style of the Collection. The patterned glass door also adds to the sincere nature of the Collection with the exclusive Pendulum pattern.

Finish this wood with a dry-brushed, cool gray stain for a Mountain Modern look.
Art Deco meets Asian Zen. You’ll also see notes from the tech world. If you’re drawn to strong, crisp lines and precise geometry, this Collection is a great place to start. Finish it with clean white paint and go West Coast Contemporary. Stain it a light matte and bring out the Minimalist. Use today’s hottest paint color and take it to the Urban Edge. Very Square is a great foundation on which to layer the most contemporary styles.

Designers Alexandre Blazys and Benoit Gérard paired eclectic accessories with Very Square Scene II mouldings to define this home office.

CRISP, MODERN, CLEAN, LINEAR, PEACEFUL

**STRONG LINES**
The Very Square Finishing Collection embraces the beauty of strong lines and a precise geometry that lend themselves to a variety of styles. These lines create a simple Urban feel without appearing overly decorative.

**SIMPLE GOES ZEN**
The traditional, geometric lines of Very Square can take on many different characters. Use medium-toned paint on both your walls and trim to give these strong lines a warm Asian Zen feel. They can also mimic an Art Deco look, as well as many other styles.

**WOOD AND STAIN**
Rift cut White Oak in Scene III creates a decidedly contemporary look through the use of long linear grain patterns. Take it West Coast Contemporary with a glossy white finish, or use a lighter stain to let the grain shine through.
